

ANDRES GARCIA ALVAREZ

Full Stack Developer - AI Generative AI Integration - Backend Specialist

@ agarciactg@gmail.com /agarciactg/ /in/agarciactg/

Full Stack Developer with over 5 years of experience building scalable, secure, and highly available systems. Specialized in Python (Django, DRF, FastAPI) and JavaScript/TypeScript (Node.js, React, Next.js), with a focus on APIs and microservices architectures. Actively adopts Generative AI technologies: Integration of LLMs (OpenAI, Anthropic, Claude), implementation of Retrievable-Augmented Generation (RAG) workflow automation with AI. Focused on bringing products to market that combine robust backends with cutting-edge AI capabilities.

WORK EXPERIENCE

IMGINESAPPS

Full Stack Developer Remote, Colombia
Jun 2025 - March 2026

- DevOps and environments:** Containerization of services with Docker and Docker Compose to ensure consistency between development and production environments, along with active improvement of CI/CD pipelines.
- Quality and collaborative work:** Continuous collaboration with QA and product teams in the definition, validation, and delivery of features, ensuring robust and business-oriented solutions.
- Modern frontend:** Development of dynamic interfaces with React, Next.js, TypeScript, and Tailwind CSS.
- Data and performance:** Modeling and optimization of queries in PostgreSQL to improve performance.
- Data and services:** Development of solutions with Python, Django, and GraphQL, building dynamic endpoints and managing PostgreSQL.

LSV-TECH

Software Developer Cartagena, Colombia
Feb 2021 - Jun 2025
Computer Engineer
Feb 2023 - Present

- Full Stack Development:** Development of web platforms for document management and audits using React, Node.js, and PostgreSQL.
- APIs and Backend:** Design and implementation of REST APIs with Django REST Framework, optimizing performance and response times.
- Data and services:** Development of solutions with Python, Django, and GraphQL, building dynamic endpoints and managing PostgreSQL.

Freelance

Programmer Cartagena, Colombia
Feb 2020 - Jan 2021

Development of scripts and solutions in Python applying object-oriented programming (OOP). Focus on clean, reusable, and scalable code for process automation.

SKILLS

- Backend:** Microservices Python Fastapi Django
Django REST Framework GraphQL Node.js
- Frontend:** Nextjs JavaScript (ES6) TypeScript React
HTML5 CSS Bootstrap Ant Design
- Databases:** PostgreSQL MySQL SQLite MongoDB
- DevOps:** Docker Docker Compose Azure
Git (GitHub, GitLab) Bitbucket
- Testing - QA:** Unit Testing Web Scraping Mock
- Methodology:** SCRUM Jira Monday

EDUCATION

Computer Engineering
Universidad Autonoma de Nariño
Cartagena, Colombia
Feb 2020
Mar 2025
Thesis: Development of an enrollment management system for public institutions, optimizing processes and improving access to academic information.

Technical Degree in Systems
Cedesarrollo Comfenalco
Feb 2019
Jul 2020
Cartagena, Colombia
Thesis: Development of a web platform for employee management within a company.
